

Glenwood

Glenwoods are always Brim Full of New Wrinkles

The Glenwood Balanced Baking Damper is far ahead of any other—it is as positive as the turning of a railroad switch—open to start the fire, closed to bake—just this one damper for kindling or baking and best all, it can't warp or stick.

The Glenwood Revolving Coal Grate is easy to shake at all times, and simply fine for removing clinkers. It is triangular in shape, with three different sides for wear.

The Glenwood Sectional Top is interchangeable—cross pieces can not warp—a wash boiler can be placed at the back as well as in front for quick heating, leaving the front holes free for cooking.

The Glenwood Shelf Under Oven Door is not stationary—it automatically raises and lowers as oven door is opened or closed. It is always level with oven bottom—a great convenience when basting meats or removing food.

The Ash Pan rests on a roller bearing frame—just open door and it rolls out at the slightest touch, neat and clean.

Glenwood Iron is smooth and perfect—the easiest of any to clean—a real delight to the most exacting housekeeper.

It's the range that "Makes Cooking Easy"

NURSE'S ERROR CAUSED DEATH

Patient Died of Oxalic Acid Poisoning and Four Others Very Ill

NURSE DISCHARGED, NOT PROSECUTED

Atlantic City Hospital Was Scene of the Tragic Affair

Atlantic City, N. J., Oct. 28.—One man is dead and four patients are fighting for their lives in Atlantic City hospital because of a mistake made by a nurse, who gave oxalic acid by mistake.

The dead man is Joseph W. Thomas, 35 years old, 704 Arctic avenue. He was brought to the hospital suffering from injuries received when he was run over by a wagon. One of the nurses gave him the poison, thinking it was his medicine, as it was the same color. He died Oct. 14, but the hospital authorities kept the cause of his death a secret.

Yesterday the hospital authorities refused to discuss the case, but stated that the nurse had been discharged. They would not give out her name and refused to tell the names of the four other patients, who are said to be fighting off the effects of the poison.

County Physician Souder gave a death certificate for the removal of Thomas' body. He says there will be no prosecution, as he is convinced that the poison was administered by mistake. It also became known that Prosecutor Charles S. Moore and the county medical authorities knew the cause of the death of Thomas, but they too have kept the news a secret.

Who the four other patients are is known only to the hospital authorities. It was stated, however, that as prompt treatment was administered shortly after the mistake was made, there is a good chance of the four recovering. The mistake of the nurse in the case of Thomas was not discovered until the poison had done its work too effectively to offset it.

Prosecutor Moore says that he agreed not to prosecute the nurse, nor to make any investigation after he had verified the statements that had been made to him by the board of directors of the hospital.

He said that the members of the board visited him, explained the mistake of the nurse and assured him that everything possible was being done to save the lives of the other four patients. They asked him for the sake of the hospital's reputation to refrain from a prosecution which would only result in unpleasant notoriety.

CATCH AUTO THIEF SUSPECT IN FITCHBURG

Hyde Park Policeman Brings Back a Much Sought Youth.

Boston, Oct. 28.—Patrolman Frank Shepherd of the Hyde Park police station brought back to this city John R. Brown, aged 20 years, wanted by the Fitchburg police, who was arrested by the police of this city. The arrest of Brown is considered by the police to be of the most important, as a country-wide search had been made for him. The police say he is one of a gang of thieves who have been stealing automobiles in this city for some time.

Brown is said to be one of the trio which broke into the Hyde Park garage the morning of July 18, stealing an automobile owned by W. J. Finn of Hyde Park avenue, which was later found abandoned in the field in New Hampshire. Shortly after the break the two alleged companions of Brown were arrested, and they are now serving sentences in the house of correction. Brown was indicted by the Suffolk grand jury, and it was on this indictment he was brought back to this city. He is now held at the Charles street jail awaiting bondsmen.

The young man's arrest was brought about by Inspector Gooley and Patrolman McKenna of the Fitchburg police, who had been given a description of the missing man. The inspector was notified that Brown was seen in the city and a close watch was kept on all the garages. The young man was seen in the vicinity of Lunenburg street, Fitchburg, and the officers waited for him. In a short time he entered a garage and he was at once placed under arrest. At first he denied his identity, it is said, but later admitted, according to the police that he was the much sought for man. The Fitchburg police would like to question Brown for the purpose of seeing if he could throw any light on the breaks in that town, which resulted in the arrest of two men who attacked Chief James, and then fled, one being killed from a bullet of the chief.

WILSON TO SEE CLARK.

House Speaker Invited to the White House.

Washington, D. C., Oct. 28.—Speaker Clark has been invited by President Wilson to confer with him some time before Congress convenes on the general legislative program for the next session, particularly the administration's plans for national defense. The president yesterday sent a letter to the speaker at Bowling Green, Mo., extending the invitation. The time for the conference was left to Mr. Clark. After the president has discussed the national defense plans with the Democratic leaders it is reported he will also call into conference Minority Leader Mann of the House and Minority Leader Cullender of the Senate, as the administration desires to press the army and navy appropriation bills on a strictly non-partisan basis. Chairman Chamberlain of the Senate military committee reached Washington yesterday and will confer today with the president on the proposed army appropriations.

CANADA TURNS TO WAR ORDERS

Needs of Great Armies Main Industrial Incentive—Manufacturers Deal Directly With War Office.

Montreal, Oct. 28.—The current issue of the Canadian Grocer contains an article on "Canada's War Supplies," which says in part:

With all branches of trade more or less dislocated from their usual channels and unprecedented business conditions prevailing, the attention of the manufacturer and the producer is being largely occupied in an analysis of this commercial confusion with the idea of taking advantage of any development which may work to his compensation and advantage. The predominant factor in the Canadian situation at the present time is war orders. In the readjustment of

affairs new markets for our natural products abroad and new demands for our manufactured goods at home will undoubtedly materialize, but while the great conflict lasts the needs of the armies in the field will form the great incentive to our energies.

Working along practical lines, an arrangement was reached through the Canadian Pacific railway by which Edward Fitzgerald of the company's purchasing department and a buyer of many years experience was made agent of the war office. His machinery is a unit of the C. P. R. system, which is acting directly under the control of the British authorities. Thus Canadian manufacturers and producers seeking a share of war business need not consider such factors as political influence, second hand commissions, etc. They will be dealing with the war office just as they would deal with the Canadian Pacific railway. This means that goods are bought on their merits, the three important points being quality, appearance and price.

Since his appointment Mr. Fitzgerald has placed orders for about \$5,000,000. In relation to the reports which have been heard of the immensity of the shell orders, this amount is comparatively small; but when it is remembered that it is for miscellaneous articles and when it is considered in relation to peace times it will be recognized that it represents a big volume of business. However, there is reason to believe that it might have been greater with a wider field and with a better appreciation in England of our possibilities.

As regards the amount of money involved, the most important items of the purchases made cover the following: Woolen socks and cotton drawers, shoes, axes, electric wire and handles, cheese.

ALLEGED EFFORT TO DECEIVE

Was Made by New Haven Railroad Board in Massachusetts

WHEN ROAD SOUGHT TO GET "OLD COLONY"

Government Alleges Stock of Steamboat Co. Was Held by Morgan Temporarily

New York, Oct. 28.—When Charles S. Mellen resumed the witness stand yesterday for his sixth day of testimony at the trial of the 11 directors and former directors of the New York, New Haven & Hartford railroad under the Sherman anti-trust law, Atty. Frank Swacker, for the government, spread before the jury written testimony to prove that the New Haven directors took action to deceive the authorities of Massachusetts at a time when the road was seeking to acquire the minority stock of the Old Colony Steamship company back in 1904. He read into the records minutes which indicated that the board of directors took cognizance of the fact that the Massachusetts Senate was inquiring into the lease of the Old Colony railroad by the New Haven and the Old Colony Steamboat company, and that the question of the New Haven's policy in the matter was discussed.

The government alleges that the steamboat stock acquired was temporarily transferred to Drexel, Morgan & Co., J. P. Morgan's Philadelphia house, until legal authority had been obtained entitling the New Haven to hold it.

It was shown that Drexel, Morgan & Co. gave their note for the stock for \$500,000 and that the note was exchanged for the stock after the Massachusetts legislature had made it possible for the New Haven legally to hold it.

AMERICAN TRAINS FOR CARRANZA ARMY

U. S. Will Thus Help the De Facto Government to Crush Villa—Will Move Troops From Eagle Pass To Douglas.

Washington, D. C., Oct. 28.—Steps to expedite the passage across American soil of Carranza's army from Eagle Pass and Laredo, Tex., to Douglas, Ariz., were taken by officials yesterday. Railroad authorities were asked to hasten the troop movement to prevent possible fighting between the Carranzas and Mexican rebels on this side of the boundary, and also to relieve the situation at Douglas. Prompt arrival of the Carranza reinforcements at Agua Prieta, just opposite Douglas, officials believe, will prevent endangering Americans should Villa's army make an assault. From 7,000 to 10,000 Carranza troops are being moved to Agua Prieta. Officials hope to have these arrive before Villa's army begins

Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy, Inexpensive but Unequaled

The prompt and positive results given by this pleasant tasting, home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will usually overcome the average cough in 24 hours.

Get 2½ ounces Pinex (50 cents worth) from any drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. This makes a full pint—a family supply—of the most effective cough remedy at a cost of only 50 cents or less. You couldn't buy as much ready-made cough medicine for \$2.50. Easily prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, chest or throat cold is truly remarkable. It quickly loosens a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent loose cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in quinine and is famous the world over for its splendid effect in bronchitis, whooping cough, bronchial asthma and winter coughs.

To avoid disappointment in making this ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

its assault. Army officials predict that if the Carranza re-enforcements arrive Villa may not attempt to attack, or at least the battle ground would be chosen south of Agua Prieta and sufficiently far enough from the border to avoid danger to Americans in Douglas.

None of the Carranza troops will be permitted to leave their trains while en route across American soil. With Gen. Calles' garrison of 2,500 men at Agua Prieta, the Carranzas would far outnumber the remnant of Villa's army. Nearly 2,800 more Carranzas are marching upon Villa's rear from Guaymas. Army officials believe Villa may be hemmed in and routed unless he retreats farther westward into the Sonora mountains.

Resinol

heals skin diseases

If you have eczema, ringworm or other itching, burning, raw or pimply skin eruption, try Resinol Ointment and Resinol Soap and see how quickly the itching stops and the trouble disappears, even in severe, stubborn cases.

Resinol Ointment and Resinol Soap are sold by all druggists.

GERARD PLEADS FOR LIEGE SPIES

Instructed to Intercede for 32 Condemned to Die for Alleged Military Offenses.

Washington, D. C., Oct. 28.—The state department announced yesterday that American Ambassador Gerard at Berlin had been directed to use his good offices in behalf of thirty-two persons court-martialled at Liege, Belgium, for alleged military offenses. Secretary of State Lansing said the Belgian minister had appealed to him in behalf of the prisoners.

In view of the uncertainty as to the exact offenses charged against the prisoners Ambassador Gerard was instructed to act only if it proved proper for the United States to intervene. The state department denied that President Wilson has been personally appealed to in behalf of the thirty-two prisoners.

The administration has no information of the nationality of the persons arrested, but they are supposed to be mostly Belgians. Whether any women were involved is not known.

London, Oct. 28.—Thirty-four additional death sentences against persons charged with espionage and treason have been pronounced by court-martial at Liege, according to information received here yesterday from Amsterdam.

The Amsterdam Tijd is the authority for this information. This newspaper also states that Pope Benedict, the king of Spain and President Wilson have been asked by telegram to use their influence in behalf of the condemned prisoners.

Official announcement was made yesterday that another spy had been put to death here. The announcement says the prisoner, charged with espionage, was tried recently by the general court-martial, found guilty and sentenced to death. This sentence was confirmed and carried out yesterday morning. Another spy was put to death Tuesday.

It was announced yesterday that two persons known as "K" and "L" had been arrested in England on charges of being German agents. "K" is described as a German and is charged with forging an American passport. He was tried by court-martial on Sept. 29, and was convicted.

"L" is said to be of Turkish extraction.

tion and will be tried shortly by a court-martial.

Richard Keihn, a German, has been sentenced to serve six months at Plymouth for traveling from New Orleans with documents issued to a Dutchman named Van Dyke. Keihn admitted his guilt.

JILTED GIRL THREW ACID IN PRINCE'S EYES

Produces Letter To Prove His Promise To Marry Her—Prince Leopold May Lose Sight.

Milan, Italy (via Paris), Oct. 28.—Prince Leopold of Coburg, who was wounded with a revolver in the hands of Fraulein Kamilla Rybicka and burned with acid so severely last week that he may lose his sight, was attacked by the girl because he had failed to carry out his promise to marry her, The Secola states.

A letter from the prince, written from Paris and dated July 1, 1914, in which he promised to marry the girl within a semester, is in the possession of the Jena Zeitung, The Secola says. In this letter the prince is said to have declared her his sole heir and requested his father to pay her 2,000,000 crowns in the event of his death.

The semester passed and the prince gave no sign that he intended to fulfill his promise, the report reads. In a frenzy Fraulein Rybicka tried to kill him for revenge. Afterward Fraulein Rybicka committed suicide by shooting herself. The prince is still in a grave condition. The girl was the daughter of a Viennese police captain.

MORE GOLD FROM CANADA.

Shipment of \$5,000,000 in Sovereigns Reaches Assay Office, New York.

New York, Oct. 28.—Five million dollars in gold sovereigns from Canada were received by the assay office here yesterday, the first of numerous anticipated shipments of about this size. The money was for the account of J. P. Morgan & Co., and is only about one-fifth the size of recent gold shipments made here from Canada for their account.

The shipment is the first to be made in conformance with the request of the assay office that gold be shipped in smaller quantities. So much gold has been received at the assay office recently that the facilities of the institution have been taxed.

Wood's Gilt Edge Boston Coffee

The wise Housewife demands Wood's Boston Coffee for two reasons:

First—Because she wants the best coffee—and Wood's Boston Coffee has been the best for over 40 years.

Second—Because she wants the handsome percolator shown above—a genuine spun aluminum Royal Rochester \$2.50 percolator. A percolator coupon is in each pound can, for
